

OSPREY

The Osprey™ is the lightest, quietest, and only multicaliber polygonal centerfire pistol silencer on the market. The monocoire baffle design in a polygonal package allows for greater internal volume and therefore better sound performance.

The Osprey uses a patented cam locking system to index so that the flat sight plane can be lined up below the shooter's line of sight, thereby avoiding blocking MOST standard pistol sights.

- Eccentric offset design allows use of most factory pistol sights.
- Indexing feature and locking lever ensure correct and repeatable orientation on any host.
- Industry-leading sound reduction.
- Pistons are available for common thread pitches and are interchangeable with the Octane series.
- Compatible with .300 BLK subsonic rifle ammunition.
- Can be shot "wet" by using 5cc of water or wire pulling gel.
- 45K version is the shortest hearing safe .45 ACP silencer available.
- Pistons sold separately.
