

OCTANE

MULTICALIBER

USER SERVICEABLE

FULL AUTO RATED

VERSATILE

The Octane™ is a user maintainable, multicaliber centerfire pistol silencer featuring a modular mounting system for use across a wide range of hosts. Innovative, high strength, stainless steel CTA™ (Click Together Assembly) baffles are easily disassembled for cleaning and make the Octane

the most durable pistol suppressor on the market. This durability is a vital feature of the Octane and means that it can be used on everything from semi auto pistols to carbines to submachine guns – even hosts like the iconic H&K® MP5.
