

USER SERVICEABLE

MULTICALIBER

FULL AUTO RATED

SPARROW 22

The Sparrow™ 22 was designed with simplicity, durability, and user serviceability as its core objectives, and has the quietest 10 round average of any silencer in its class. Patented Multi-Part Containment (MPCTM) technology facilitates ease of disassembly and reassembly – an essential

function of rimfire suppressors. The internal MPC construction uses two half tubes that pull away from a monolithic core, which ensures that the Sparrow 22 will remain easy to clean after extended periods of use with notoriously dirty rimfire ammunition.
