FOR IMMEDIATE RELEASE

SilencerCo AR-15 Lower Now Available Through Major Distributors

June 7, 2021 -- West Valley City, UT -- SilencerCo's AR-15 Lower, previously sold only at exclusive locations, is now available to all firearm retailers through major gun distributors.

The SCO15 Lower Receiver is fully customizable and made from billet 7075-T6 aluminum. It is finished in a type III hardcoat anodize for added durability and corrosion resistance. A variety of unique features set the SCO15 apart from other lowers, including an ambidextrous bolt catch, flared magwell, integrated QD sling cups and an enlarged integral trigger guard, all at an affordable price.

"The SCO15 is a product that combines the highest quality of in-house development with the most coveted features in an AR-15 Lower Receiver," said Scott Clinger, SilencerCo's VP of Business Development. "We are excited to make these lowers more widely available for customers at their local retailers. It's the perfect start for those who want to complete their dream AR-15 build."

The SCO15 is precision machined for compatibility with any customer's preferred AR-15 parts. It has an MSRP of \$249 and will be available to firearm retailers through the following distributors: RSR Group, Lipsey's, Camfour, Allen Arms Tactical, Sports South, Bill Hicks, Silencer Shop, Brownell's and Capitol Armory.
