**FOR IMMEDIATE RELEASE**

### **SilencerCo Drops Limited Edition Sparrow-Ti in Honor of 15-Year Anniversary**

**October 23, 2023 — West Valley City, UT —** SilencerCo is celebrating 15 years in business with the launch of a limited edition Sparrow-Ti. This will commemorate 15 years of the original Sparrow – the suppressor that started it all. The Sparrow-Ti limited batch will go on sale to the public October 30, 2023 through the SilencerCo website. Customers can sign up for an early access list for priority purchasing.

The Sparrow-Ti offers the same iconic features of the original Sparrow with a new spin on materials. Rather than stainless steel, the Sparrow-Ti is completely constructed from titanium. It's also only around half the weight of the original Sparrow, with the titanium version at 3.8oz. The Sparrow-Ti has a special proprietary two-tone gray and bronze anodized finish for a completely unique look.

"We're 15-years in, and we wanted to make the most perfect replica of the original version of the Sparrow," said SilencerCo CEO, Jonathon Shults. "So we went with all-titanium and a custom-anodized coating that's exclusive to us to commemorate what we've done."

The sale of the Sparrow-Ti also marks the exciting start of SilencerCo's direct purchasing service. This will allow customers to purchase not only the Sparrow-Ti, but also all other SilencerCo suppressors directly from the SilencerCo website moving forward. Previously, SilencerCo suppressors were only available at local dealers with accessories for purchase online.

Customers can purchase a Sparrow-Ti from Silencerco.com for \$499 and have the silencer transferred to their chosen dealer via the SilencerCo dealer database. Dealers and distributors must purchase the product through the dealer portal at special dealer pricing.

Those who opt into the early access SMS/email list will receive early access to purchase the Sparrow-Ti *before* it goes on sale to the public. With only a limited number of these suppressors being produced, the early access group may be the only customers lucky enough to secure one of these elusive Sparrow-Ti silencers.
