## Features

- Attaches via choke mount to most commercially available gas operated, inertia driven, or pump action shotguns with barrels threaded for chokes.
- Modular design allows the user to shorten the silencer in 2" increments down to 6" to balance size, weight, and sound requirements.
- Rated for wadded shells up to 3" including buckshot and slugs.
- Hearing safe at the ear in the 8" configuration.
- Noticeably reduces felt recoil.
- Choke mounts and rod kits sold separately – choke mounts available in improved cylinder, improved modified, and full.
